ABOUT THE REPORT

This report consists of two parts. The first part is a compilation of education-related data derived from other sources. Data for this part of the report is primarily derived from the National Center for Education Statistics (NCES).

The second part consists of a compilation of data derived from a survey of the Southern Legislative Conference states. There are three sections of data presented in the second part: (1) Salaries and benefits; (2) education statistics; and (3) recent major education legislation. The data that are presented in the tables are responses of the States to the questions presented in the *Survey Indexed to Tables* part of this report. In order to make the data more comparable, the states were requested to use data from the 2012-2013 school/fiscal year if possible. If use of data from the 2012-2013 school/fiscal year was not possible, states were requested to use the most up-to-date data available. For the first two sections of the second part of the report, the year from which the data were derived is presented in the table beside the data. Additionally, a comments section is presented at the end of each of the first two sections in the second part of this report. In addition to being viewed in this report, the data compiled in the second part of this report also may be viewed online at the following address:

<http://www.legis.state.wv.us/Surveys/educsurv/edsurv-menu.cfm>

Hank Hager, West Virginia Senate Education Committee, compiled this report. David Martin, West Virginia Public Information, developed and maintained the Internet site set up for data collection. Staff from the departments of education of the fifteen Southern Legislative Conference states provided the information for the second part of the report.

PART I

DATA DERIVED FROM OTHER SOURCES

KEY FINDINGS

- The SLC average scale scores on all the latest National Assessment of Education Progress (NAEP) assessments have equaled or slightly trailed the average scale scores for the nation. See pages 6-13.
- Nine of the 15 SLC states ranked 39th or lower in the percentage of population 25 or older with a bachelor's degree in 2013. See page 15.
- Thirteen of the 15 SLC states ranked 15th or higher in the percentage of children under 18 years of age below the poverty level. See page 16.
- The percentage of students eligible for free or reduced lunch was substantially higher in the SLC states than nationally during the 2012-13 school year. See page 17.
- The increase in the number of total students enrolled in the SLC was almost triple that of the increase for the U.S. between the 2002-03 school year and the 2012-13 school year. A very significant portion of this increase is attributable to the 19.2% increase in the state of Texas over that 10-year period. See page 18.
- There has been very little, if any, change in pupil-teacher ratios over the 10-year period between the 2002-03 school year and the 2012-13 school year. Exceptions include Florida where the pupil-teacher ratio decreased by 3.1 over that period and Virginia where the pupil-teacher ratio increased by 2.4 over that period. See page 19.
- The SLC had a higher student-instructional aide ratio, student-instructional coordinator ratio, student-LEA administrator ratio, and student-student support services staff ratio than the U.S. during the 2012-13 school year, but the U.S. had a higher student-guidance counselor ratio, student-librarian ratio, and student-school administrator ratio. See page 20.
- During the 2012 fiscal year, the current expenditures per student were more than \$1,800 higher for the U.S. than for the SLC. The U.S. percentage increase in current expenditures per student between the 2002 fiscal year and the 2012 fiscal year also was more than five percentage points higher than the SLC percentage increase. See page 23.
- The U.S. made more effort in salaries and benefits than the SLC during the 2012 fiscal year when using total salary expenditures per student and the total employee benefit expenditures per student as an indicator. Surprisingly, U.S. and SLC salary expenditures per student have actually declined slightly in recent years. See pages 25 and 26.

PART II

DATA DERIVED FROM SURVEY OF STATES

Survey Indexed to Tables

Section 1. Salaries and Benefits.

1.1 Average annual gross salary for teachers excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds.

1.2 Average annual gross salary for principals excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds. Please include head principals only, and not vice principals or assistant principals.

1.3 Average annual gross salary for service personnel excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds. Service Personnel means those who serve the school or schools as a whole, in a nonprofessional capacity, including such areas as secretarial, custodial, maintenance, transportation, school lunch and as aides.

1.4 Average annual gross salary for bus drivers excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds.

1.5 Average annual gross salary for custodians excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds.

1.6 Average annual gross salary for cooks excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds.

1.7 Average annual gross salary for secretaries excluding benefits that are in addition to gross salary. Please include the amounts from all sources including federal, state and local funds.

1.8 Does the state set minimum sick leave benefits for teachers? If yes, please specify the minimum number of days per year that are required by the State.

1.9 Does the state set minimum sabbatical leave benefits for teachers? If yes, please specify the number of days per year that are required by the State.

1.10 Retirement:

(a) Age and/or years of service at which teachers may retire with full benefits. If your state currently has an old and a new retirement system for teachers, please use the age that a teacher may retire with full benefits under the most recent retirement system. If your answer is longer than just listing the age or years of service, please answer "See comments" and place your answer in the comments section.

(b) Average teacher retirement age.

1.11 Are social security benefits used in calculating retirement benefits for school employees?

1.12 Annual turnover rate for teachers. For the purpose of responding to this question, the annual turnover rate for teachers is the percentage of teachers who left positions in their school and did not return to the same or another position at the same school from the beginning of one school year to the beginning of the

next school year. Also, for the purpose of responding to this question, "teachers" includes all personnel employed as professionals at a school such as classroom teachers, principals, librarians, guidance counselors, etc. Lastly, please round your answer to the nearest tenth of a percent.

1.13 Expenditures for medical benefits. Please include the amounts from all sources including federal, state and local funds.

Section 2. Education Statistics.

2.1 Average number of students enrolled in elementary schools.

Salaries and Benefits

State	Comments
Alabama	<p>1.8 Teachers earn a minimum of 5 days each contract year (187 day contract). Unused days may be carried over each year and accumulated.</p> <p>1.10(a) Teachers are eligible for retirement benefits after 25 years of service credit. There is no minimum age requirement.</p>
Arkansas	<p>1.8 Each teacher earns sick leave at a minimum rate of one day per month for which the teacher is contracted at full pay. Unused sick leave is accumulated at the rate of one day per month or major portion thereof employed until ninety (90) days have been accumulated. Sick leave may be taken for personal illness or illness of the immediate family. Teachers can transfer up to ninety (90) days of any unused sick leave credit when transferring to another Arkansas School District, educational cooperative, state education agency, or two year college.</p> <p>1.10(a) Teachers may retire with full benefits at 60 years of age and five or more years of actual service or after 28 years of service.</p> <p>1.13 School districts are required to pay a minimum of \$131 per month for each eligible employee electing to participate in the public school employee's health insurance program.</p>
Florida	<p>1.8 Instructional staff are entitled to four (4) days of sick leave on the first day of employment, and earn one (1) day each month thereafter.</p> <p>1.9 The state does not set a minimum for sabbatical leave. However, a maximum is set; that is, a teacher may use sabbatical leave for a period not to exceed one year.</p> <p>1.10 For what is termed as normal retirement, the age is 60 or 62 depending on the teacher's membership date into the retirement system.</p> <p>1.13 School districts can report expenditures for medical benefits to the state as a separate category or as part of a flexible benefit plan which includes a group of benefits. Therefore, the state cannot accurately capture total expenditures for this benefit.</p>

The rest may be taken only for accident, sickness, etc.</p> <p>1.9 West Virginia Code §18-2-11 requires the State Board of Education to establish a sabbatical leave program by policy, but provides</p>

State	Comments
	<p>that participation by each county board of education is optional.</p> <p>1.10(a) Under the State Teachers Retirement System, a teacher may retire with full benefits if they meet one of the following requirements: (1) While still in covered employment, attainment of at least age 60 and completion of 5 or more years of credited service; (2) while still in covered employment, attainment of at least age 55 and completion of 30 or more years of credited service; or (3) while still in covered employment, at any age and completion of 35 or more years of credited service. An individual with 5 or more years of contributing service who terminates employment prior to retirement, but does not withdraw his or her employee contributions, will be eligible for retirement benefits at age 62, or at age 60 with 20 years of contributing service.</p> <p>1.10(b) This average teacher retirement age reflects the average retirement age of all members of the Teacher's Retirement System including service personnel. Education Statistics

State	Comments
Alabama	2.12(a) Special Education count does not include gifted.
Arkansas	3.4 Average Oct. 1 enrollment. 3.7 The state requires a 190 day minimum for teachers.
Florida	2.1 - 2.3 Number of schools does not include combination schools. 2.7 - 2.10 The state mandate is not specific to employment category. It refers to "school employee". The statute sets the minimum time as a year of service by a school employee to be full-time actual service (including sick leave and compensated holidays) of 196 days or longer. 2.14(b) Florida does not set minimum instructional hours per day anymore. However, 720 instructional hours must be provided for students in kindergarten through grade 3, and 900 instructional hours must be provided for students in grades 4 through 12 each school year.
Georgia	2.12 For this section, total state K-12 student population included the enrollment in grades K-12 only. 2.14(b) The required number of instructional hours per day varies by the grade level. In grades K-3, a daily average of 4.5 hours is required. In grades 4-5, a daily average of five hours is required. In grades 6-12, a daily average of 5.5 hours is required.
Kentucky	2.12(a) The special education count is for ages 3-21 yrs old. 2.13(a) We don't collect for under 4th grade.
Louisiana	2.1 440 - Average number per school based on students in the number of schools reported. Students in combination schools are not reflected. 2.2 520- Average number per school based on students in the number of schools reported. Students in combination schools are not reflected. 2.3 685 - Average number per school based on students in the number of schools reported. Students in combination schools are not

A district or charter school may participate in and receive funding under this program if the district or charter meets all required program standards. The grant amount may not exceed \$1,500 per qualified student. A student qualifies for the additional grant funding if the student meets the state prekindergarten eligibility requirements and is four years of age on September 1 of the year the student begins the program. A school district that receives this grant funding may use the funding only to improve the quality of the district’s prekindergarten programs. A district must select and implement a curriculum for a high-quality prekindergarten grant program that includes the Prekindergarten Guidelines established by TEA, measures the progress of students in meeting the recommended learning outcomes, and does not use national curriculum standards developed by the Common Core State Standards Initiative. The high-quality prekindergarten program creates additional requirements for the teachers. Schools participating in this program must attempt to maintain an average ratio in any prekindergarten program class of not less than one certified teacher or teacher’s aide for each 11 students, develop and implement a family engagement plan, and select and implement methods for evaluating the district’s high-quality prekindergarten program classes by measuring student progress. The district or school must make data from the results of the evaluation available to parents. The commissioner is required to evaluate the use and effectiveness of funding provided under this grant program in improving student learning and must identify effective instructional strategies implemented by districts and schools under this program. •HB 2398 repeals the offense of failure to attend school in Section 25.094 of the Education Code and removes truancy from the definition of conduct indicating need for supervision currently under the Family Code Section 51.03(b)(2). It would create a new civil offense called "truant conduct," which would apply to a child age 12 or older and younger than 19. The Texas Education Agency (TEA) is required to create minimum standards and establish best practices for truancy prevention measures, and adopt rules for sanctioning school districts found to be noncompliant with those minimum standards. The bill requires school districts to employ a truancy prevention facilitator or designate an existing employee as such. The bill would require school districts to take one or more of specified actions as truancy prevention measures if a student has unexcused absences for three days or parts of days in a four week period. The bill would prohibit a school district from referring a student to truancy court if the school determines that the student's truancy is due to pregnancy, being in foster care, homelessness, or being the principal earner for the student's family.
